

PSS 90

The Personal Safety System

PSS®90 ensures that donning and wearing of professional breathing apparatus has never been so simple.

The PSS®90 features an orthopaedically designed backplate, moulded from glass-filled polyamide with carbon fibre for resilience and strength. Following the natural contours of the back and attached securely to the fully padded waistbelt assembly, the result is a carrying system which reduces backstrain, stress and fatigue.

Every component is manufactured to a high degree of chemical, heat and flame resistance. PSS®90 complies with the highest flame engulfment standards in the world, including NFPA 1981:1997 and PrEN137.

The PSS®90 can be used with either standard gauge or the DrägerMan Bodyguard® II - an innovative, fully electronic monitoring unit combining a host of monitoring and warning devices into a single instrument.

Dräger Worldwide

The Dräger sales and service organisation is spread throughout the world. It comprises more than 25 subsidiaries and associated companies to ensure that Dräger is always within easy reach of its clients and in close contact with all important markets. Dräger's ever increasing market share demonstrates the company's international competitiveness and strength.

Dräger Service

Safety equipment must always be fully functional and safe. DrägerService offers a regular inspection service and is quickly available in the event of malfunction. Your equipment will be repaired and back in operation as quickly as possible. DrägerService facilitates the vital flow of information between client and manufacturer.

Dräger Expertise

Since 1889, Dräger has had an outstanding reputation for solving problems in the field of human breathing. Dräger has been deeply involved in the handling of gases, in particular hazard protection and the saving of life in medical and industrial emergencies. Many of the company's 8500 employees are active in research and innovation to ensure that the latest techniques and scientific advances are fully tested before their inclusion in new equipment.

Dräger has subsidiaries in the following countries: Australia, Austria, Belgium, Bulgaria, Canada, Czech Republic, China, Denmark, France, Great Britain, Hungary, Indonesia, Italy, Japan, Croatia, Netherlands, Norway, Romania, Singapore, South Korea, Slovenia, Slovakia, South Africa, Spain, Sweden, Switzerland, Thailand, Yugoslavia, USA. Additionally, Dräger is widely represented in Central and South America, Africa, the Middle East, the Far East and Eastern Europe.
